

What is FISH?

- * FISH is a three-day retreat held once a year in the fall for high school age youth. It is an opportunity to look at yourself, your relationships with your peers, and your relationship with God.
- * FISH is a time for Christian fellowship. The weekend is designed to help each participant with his or her Christian walk.
- * FISH is meant to promote active involvement in Christian living. Are you seeking some answers about your relationship with Christ?

FISH is open to youth from all denominations.

FISH participants will join the congregation for Eucharist on Sunday.

If you are in the 9th, 10th, 11th or 12th grade, FISH may be for you.

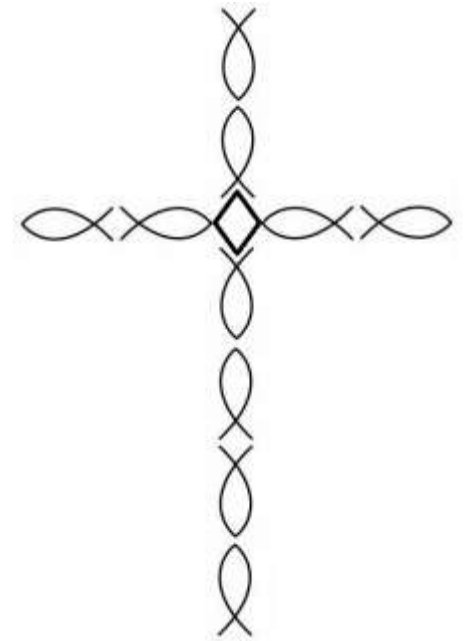

FISH provides opportunities for mentoring, building friendships, discovering Christ.

What FISH is not...

- * FISH is not an encounter group.
- * FISH is not a separate movement from the Church; rather, it is designed to promote involvement in the Church.
- * FISH is not just fun, but there is fun during the weekend.

At the end of the weekend...you'll have made friends, learned more about yourself, and your relationship with God.

The format of a FISH weekend...

FISH begins on Friday evening and ends on Sunday afternoon. It blends serious reflection and lightheartedness.

The weekend is organized and directed by young people with adult supervision—both clergy and lay. Young people and clergy give talks during the weekend.

There are times of singing, playing, community worship, and private prayer. There is a time to share with others in a safe, supportive environment. The FISH weekend is structured but each participant is given the opportunity to be an individual.
